Sonora, CA 95370

Mr. Jeff Morrison:

I wish to express my appreciation for the recent floor leveling work provided for the Housing and Urban Development project at the Moss Federal Office Building in Sacramento, California. You were able to coordinate your work with the building manager and a concurrent contract, your equipment and materials were deployed as we agreed, the installation took place as scheduled, and the demobilization and clean-up was conducted as promised. The leveling material was expertly applied to the existing concrete floor, and it will greatly facilitate the subsequent installation of the finish flooring. I will gladly represent you and your work to subsequent clients if you wish to utilize me as a reference. Thank you once again for your effort and performance.

Best regards,

David West
HUD project manager, General Services Administration
